

# BEM IT, CSS!

\$ whoami

Brian van Burken  
Software Engineer @ Avisi

# What is BEMIT?

Q: How do we write our CSS?

A: BEM

Q: How do we structure our CSS?

A: ITCSS

# BEM

Stands for *Block Element Modifier*

*"BEM is a way to modularize development of web pages. By breaking you web interface into components... you can have your interface divided into independent part, each one with its own development cycle."*

– Varya Stepanova

# tiles---4v

The image shows a horizontal arrangement of four square tiles, each featuring a photograph and text. The tiles are set against a white background with a subtle shadow effect.

# **ITCSS**

Stands for *Inverted Triangle CSS*

*"Inverted Triangle architecture  
for CSS. A sane, scalable,  
managed architecture. A school-  
of-thought, not a library. A meta  
framework; a framework for  
frameworks. Incredibly simple.*

— Harry Roberts
